Omaha 44, Nebraska

Dear Carl,
I am very sorry you did not receive an answer on your letter of July 3, 1963. Ray Schultz was a part time engineer and I presume he did not answer reception reports. I am now engineer here at KGPC and I welcome all reports. It is satisfying to know our signal is picked up at various distances.

To verify your report, we did have a freg. measurement on KGPC on April 8, 1963. Our tests are usually run on the second Monday of the month at 1:30 A M CST.

I am enclosing a coverage map, which was made up for 250 watts. We are now operating at 1000 watts, but have not made up new coverage charts.

Thanking you for your report, and would be glad to here from you again.

Sincerely,

Jon E Wordelman

Jon E. Wordelman
Chief Engineer.
